

To Whom it may Concern:

January 16, 2018

Delightful, pleasant, kind, dependable, ambitious, diligent, considerate, reliable, sensible, energetic, smart, hard-working, these are a few words that immediately come to mind when I think of Samantha Moore, or as I know her, Sammie. Sammie greets me with a positive attitude and a brilliant smile on a daily basis.

I have had the priveledge of supervising Sammie in the school cafeteria for three years where she has been a paid student worker. I remember the very first time I met Sammie, she was inquiring about working in the cafeteria. We were not hiring at the time but I noticed a certain extra something about her and asked for a phone number where I could reach her. When our director decided to hire more students I immediately called Sammie!

When Sammie graduates this year we will all miss her very much but I know Sammie will continue to make this world a better place.

Sincerely,

Valerie Burns
